

News and updates from LS Retail

DEVELOPMENT

LS Central 22.0 and 22.1 have been released

Since we last sent a newsletter, there have been two new LS Central releases, LS Central 22.0 on 25 May, and LS Central 22.1 on 8 June. Please find the release announcements on the [LS Retail Portal](#). See the [Release Notes](#) for further details about the releases.

Important note: The time frame between the 22.0 and 22.1 releases was so short that we will **not release 22.1 on SaaS**.

Our plan is to release LS Central 22.2 on June 29, 2023. This will be our next LS Central SaaS release.

Analytics for LS Central 2023.3 released

In this latest release of Analytics for LS Central the focus has been on updating the data warehouse to be able to add new report pages to the templates.

- **Sales Analytics** – POS transactions and tender type reports added.
- **Supply Chain** – Purchases, Sales and Inventory information combined into tabular reports.
- **Hotels** – Changes in revenue and four new report pages

This release also includes a few bug fixes in reports and data warehouse.

PARTNER OPERATIONS

Naming contest - new name for the Business Center

The value and importance of the [LS Retail Business Center](#) to us and our partners has been growing in recent years, with more and more features being added. The current name is often confused with *Business Central* so we are planning to rename the Business Center. We would like to ask for your help to find a good name and ask you to please send your suggestion(s) to POPS@lsretail.com with the subject: New Name for Business Center.

You have to act fast if you want to participate since we will only have it open for suggestions until 23 June, and then we will ask you to vote for your favorite among the pre-selected proposed names. The owner of the selected name will get a prize!

MARKETING

Deadline for customer stories coming up!

Many partners nominated customers for customer stories earlier this year. This is a gentle reminder that the deadline for submitting the completed stories is **30 June, 2023**.

Note that we have created a [Customer Story form](#) that you can use as template to build an effective case study. You will find further information [in the form](#).

Please contact info@lsretail.com if you have any questions.

Big thanks to all after conneXion 2023

We have had some time to assess our three regional conneXion events earlier this year, and have received feedback from partners and others that attended. The general consensus is that the events were a success. We would like to thank everyone involved from their contribution.

A special thank you to all the sponsors of conneXion!
