### PARTNER OPERATIONS

### Program retirement announcement: Dynamics ISV Embed for on-premises solutions

Microsoft has announced in a newsletter that on December 31<sup>st</sup>, 2022, the Microsoft ISV Embed program for Dynamics on-premises solutions will be retired. This notification does not affect the ISV Cloud Embed program or the ISV Connect Program, which are programs for Dynamics cloud solutions. What this means is that existing agreements covering ISV Embed agreements for on-premises solutions will expire. [More details here.](#)

### User Management for Business Center Admins

The **Business Center** is where our Partners can view account and license information including enhancement dates, auto bill status, invoices and more. The partners control who gets access to this data as their Business Center Admin needs to approve each registration. We have now created a User Management dashboard so that the Admins can update information about their colleagues in the Business Center. We encourage all partners to clean up the contact list. We strive to keep our contact information up to date and now you can help us!

Instructions for Business Center User Management are now available in the [Operational Guidelines](#) on the portal and you can also [check them out here.](#)

NEWS

## We partnered with Voyado to help retailers improve customer personalization

We have partnered with retail martech company Voyado to offer retailers more opportunities to use their customer information to personalize interactions and grow loyalty. A new integration allows retailers to easily connect their **LS Central** retail system with Voyado Engage, a powerful multichannel marketing platform for retail and e-commerce.

The integration is available to retailers using LS Central in all the countries where the Voyado platform is sold and supported.
